

Joydeep Mitra JM.

Associate Director, UX Design | CTO Organisation, Kyndryl

Design leader. Systems thinker. Enterprise scale.

The best design work is *invisible* to the user.

Twenty years turning strategy into shipped product.

TWENTY YEARS ♦ SIX COMPANIES ♦ STRATEGY MADE TANGIBLE ♦ FIELD RESEARCH AT SCALE ♦ AI-FLUENT PRACTICE ♦
DESIGN ORG LEADERSHIP

01 — APPROACH

I lead a focused UX squad in Kyndryl's CTO Organisation, making structural UX improvements across complex enterprise ecosystems — from DevOps to multi-cloud platforms. My practice sits at the intersection of traditional design foundations and AI-extended workflows. I do not merely translate strategy; I facilitate and evoke it. Balancing proven best practices with next-generation tooling to guide teams from abstract business goals to high-fidelity UX that ships.
