01 INTRODUCTION

Senior UX leader with two decades shaping enterprise software, including the last decade leading practices, teams and design systems at scale. Recognised across UX Design, Interaction Design and Design Systems at both strategic and execution levels. Deep expertise in design strategy, co-creation and emerging technologies — agentic and Generative AI, AR/VR — ensuring innovation aligns with business objectives and user needs.

Beyond execution, I build and mentor UX organisations — fostering collaboration, driving strategic alignment, and cultivating a culture of creativity and rigour. I bring a structured yet adaptable approach to integrating UX methodologies into complex enterprise ecosystems, ensuring solutions that are user-centred, technically scalable and commercially defensible. Hands-on with custom-built LLM workflows and AI-driven design frameworks; equally at home in design-systems architecture, atomic design and usability research.

02 PROFESSIONAL SUMMARY

Seasoned UX leader with extensive experience in design strategy, strategic thinking and co-creation. Specialise in crafting user-centric designs and operationalising emerging technologies — agentic and Generative AI, integrating large language models into the UX workflow, and developing innovative AR/VR experiences for high-net-worth individuals in financial services. Currently leading UX at **Kyndryl India Ltd. (Vital Studio, CTO Organisation)**, driving structural UX improvements across complex enterprise ecosystems from DevOps to multi-cloud — including Kyndryl Bridge, the world's largest IT-infrastructure PaaS (500+ enterprise customers, \$2B annual productivity savings).

03 KEY HIGHLIGHTS

Design strategy — comprehensive UX strategies aligned with business goals and organisational objectives.

Practice leadership — built and ran a UX practice with 23% YoY growth, \$6M revenues (FY12–14), peak team size 150.

Co-creation — proven facilitator across cross-functional onsite-offshore teams and senior stakeholders.

Emerging tech — LLM integration into UX workflows; AR/VR concepts validated to device.

Field research at scale — all-India banking research, 50+ cross-functional participants, synthesis to service blueprint.

Design IP — 2 US Patent Office filings; Winner ADP Mobile Holiday Hackathon 2014–15.

04 DESIGNER'S TOOLBOX

Design methodologies — Design Thinking · Co-Creation · UX/UI · IxD · Personas · Information Architecture · Design Systems Architecture · Atomic Design · Emotional Design

User research & testing — Usability Testing · Research Enablement · Dovetail · Maze · UserTesting · EnjoyHQ

Design & prototyping — Figma · FigJam · Sketch · InVision · Craft-DSM · Axure RP · Balsamiq · ProtoPie · Locofy · Dora.run · Jitter · Adobe CS (Photoshop, Illustrator, After Effects)

Motion & build — Lottie.js · BodyMovin · Rive · Adobe After Effects · HTML · CSS · VS Code

Generative AI & emerging tech — Claude · ChatGPT · Cassidy AI · Brain.js · Ulzard (Miro) · MidJourney · Figma AI · Galileo · Loveable

05 BUSINESS & UX LEADERSHIP SKILLS

- Individual contributor with minimal guidance; comfortable owning ambiguous, multi-stakeholder programmes end-to-end.
- Past: Practice Lead, User Experience — Tech Mahindra. UX management practice: 23% YoY growth, \$6M revenues FY12–14, core team 10, peak practice 150.
- Manages projects, multi-team collaboration, stakeholders and onsite–offshore coordination; strong cross-functional leadership from a visual-design function.
- Mentors individuals to enhance project-specific skills, increasing productivity, functional knowledge and quality of experience.
- Proven expertise in rich internet applications, defining UX strategy and shaping the user experience from the ground up.

06 WORK — Based in Bangalore, India**MAY 2024 — PRESENT****Kyndryl India Limited** — Associate Director, UX Design (Kyndryl Vital Studio)
